

PROFESSIONAL BACKGROUND AND EXPERIENCE

Simon Berrell MCSP

Simon is a Clinical Specialist neurological Physiotherapist with considerable experience in the treatment of Neurological conditions.

As the Director of The NeuroPhysio Service he provides nationwide specialist assessment, treatment and training through a team of over 100 neurological Physiotherapists.

Simon's expertise covers neurological rehabilitation, postural and spasticity management and functional movement re-education, as well as being trained to inject Botulinum Toxin for the management of spasticity.

Simon has worked extensively in services providing treatment and rehabilitation for people living with a neurological condition in both the NHS and for leading Independent Sector providers.

He is a Trainer for Harrison Training and he has been responsible for contributing to the training programme for student physiotherapists at Southampton University.
