

PROFESSIONAL BACKGROUND AND EXPERIENCE

Eloise James BSc

Eloise graduated from Wits University in South Africa in 1999 with a BSc in Occupational Therapy after which she moved to the UK to work and travel.

Eloise locumed in London for several years working in acute teaching hospitals and within the community sector. During this time she specialised in adult neurology, gaining specialist skills in stroke rehabilitation, long term conditions and upper limb interventions including splinting.

For the past three and a half years she has been working in a permanent clinical position within the NHS on an adult rehabilitation unit in Hammersmith and Fulham. Her current post involves presenting for both Occupational Therapy and MDT in-services and sharing specialist skills within her team.

Eloise has been an Associate for Harrison Training for 3 years and teaches on the neurological courses.
